

MSDS (Material Safety Data Sheet) Gold Remover B - C1011

1		Product Identification	
	1	Manufacturer:	
		1 Name:	Angelgilding.com
		2 Street Address:	619 S. Clarence Ave
		3 City, State, and Zip:	Oak Park, IL 60304-1303
		4 24-hour Emergency Number	(708) 383-3340
	2	Product Code(s):	Gold Remover B - C1011
	3	Preparer:	
		1 Name:	M. G. King
		2 Phone Number:	(708) 383-3340
		3 Revision Information:	5/28/2008
2		Composition/Information on Ingredients	
	Per Ingredient:		
		1 Synonyms:	Thiourea, Thiocarbamide
		2 CAS Id:	62-56-6
		3 Formula:	(NH ₂) ₂ .CS in water
		4 Formula Weight:	76.12
		5 Percent:	6
		6 Hazardous:	
3		Hazards Identification	
	1	Overview:	WARNING! HARMFUL IF SWALLOWED OR INHALED. CAUSES IRRITATION TO SKIN, EYES AND RESPIRATORY TRACT. MAY CAUSE ALLERGIC SKIN REACTION. POSSIBLE CANCER HAZARD. MAY CAUSE CANCER BASED ON ANIMAL DATA. Risk of cancer depends on duration and level of exposure.
	2	SAF-T-DATA Ratings:	
		1 Health Rating:	2 - Moderate (Poison)
		2 Flammability Rating:	1 - Slight
		3 Reactivity Rating:	1 - Slight
		4 Contact Rating:	3 - Severe (Life)
		5 Protective Equipment:	GOGGLES & SHIELD; LAB COAT & APRON; VENT HOOD; PROPER GLOVES
		6 Storage Color Code:	Blue (Health)
	3	Potential Health Effects:	
		1 Inhalation:	Causes irritation to the respiratory tract. Symptoms may include coughing, shortness of breath.
		2 Ingestion:	Harmful if swallowed. May affect bone marrow and consequently white blood cell, red blood cell, and platelet counts.
		3 Skin Contact:	Causes irritation, redness and pain. May also cause allergic skin eruptions. Sunlight may aggravate skin allergy.
		4 Eye Contact:	Causes irritation, redness, and pain.
		5 Chronic Exposure:	Chronic exposure can cause liver damage and goiter (an enlarged thyroid gland). May affect bone marrow which could cause damage to blood. Material is a possible human carcinogen.
		6 Aggravation of Pre-existing Conditions:	Persons with preexisting skin disorders may be more susceptible to these substances.
4		First Aid Measures	

**MSDS (Material Safety Data Sheet)
Gold Remover B - C1011**

	1	Inhalation:	Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.
	2	Ingestion:	Induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention.
	3	Skin Contact:	Immediately flush skin with plenty of soap and water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.
	4	Eye Contact:	Immediately flush eyes with plenty of water for at least 15 minutes, lifting lower and upper eyelids occasionally. Get medical attention immediately.
	5	Note to Physician:	
5		Fire Fighting Measures:	
	1	Fire:	As with most organic solids, fire is possible at elevated temperatures or by contact with an ignition source.
	2	Explosion:	Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
	3	Fire Extinguishing Media:	Water spray, dry chemical, alcohol foam, or carbon dioxide.
	4	Special Information:	In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode.
6		Accidental Release Measures:	Remove all sources of ignition. Ventilate area of leak or spill. Keep unnecessary and unprotected people away from area of spill. Wear appropriate personal protective equipment as specified in Section 8. Spills: Pick up and place in a suitable container for reclamation or disposal, using a method that does not generate dust. US Regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of reportable quantities. The toll free number for the US Coast Guard National Response Center is (800) 424-8802.
7		Handling and Storage:	Keep in a tightly closed container, stored in a cool, dry, ventilated area. Protect against physical damage. Isolate from oxidizing materials. Wear special protective equipment (Sec. 8) for maintenance break-in or where exposures may exceed established exposure levels. Wash hands, face, forearms and neck when exiting restricted areas. Shower, dispose of outer clothing, change to clean garments at the end of the day. Avoid cross-contamination of street clothes. Wash hands before eating and do not eat, drink, or smoke in workplace. Containers of this material may be hazardous when empty since they retain product residues (dust, solids); observe all warnings and precautions listed for the product.
8		Exposure Controls/Personal Protection:	
	1	Airborne Exposure Limits:	
		1 OSHA PEL:	
		Thiourea	
		2 ACGIH TLV:	

MSDS (Material Safety Data Sheet)
Gold Remover B - C1011

	2	Ventilation System:	A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, Industrial Ventilation, A Manual of Recommended Practices, most recent edition, for details.
	3	Personal Respirators (NIOSH Approved):	For conditions of use where exposure to dust or mist is apparent and engineering controls are not feasible, a particulate respirator (NIOSH type N95 or better filters) may be worn. If oil particles (e.g. lubricants, cutting fluids, glycerine, etc.) are present, use a NIOSH type R or P filter. For emergencies or instances where the exposure levels are not known, use a full-face positive-pressure, air-supplied respirator. WARNING: Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.
	4	Skin Protection:	Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact.
	5	Eye Protection:	Use chemical safety goggles. Maintain eye wash fountain and quick-drench facilities in work area.
9		Physical and Chemical Properties:	
	1	Appearance:	Colorless solution
	2	Odor:	Hydrogen sulfide
	3	Solubility in water:	Complete
	4	Density (g cm-3):	1
	5	pH:	
	6	% Volatiles by volume @ 21C (70F):	
	7	Boiling Point: °C	100
	8	Melting Point (°C):	0
	9	Vapor Density (Air=1):	
	10	Vapor Pressure (mm Hg):	
	11	Evaporation Rate (BuAc=1):	
10		Stability and Reactivity:	
	1	Stability:	Stable under ordinary conditions of use and storage.
	2	Hazardous Decomposition Products:	May emit oxides of carbon, sulfur and nitrogen when heated to decomposition.
	3	Hazardous Polymerization:	May occur when in contact with acrylaldehyde.
	4	Incompatibilities:	Acrolein, acrylaldehyde, hydrogen peroxide, nitric acid, and oxidizing agents.
	5	Conditions to Avoid:	Incompatibles.
11		Toxicological Information:	
		Thiourea:	
	1	Oral rat LD50:	
	2	Tumorigen:	
	3	Mutagen:	
	4	Reproductive effector:	
	5	Carcinogenicity:
